

# Experts meeting held on climate change & biodiversity

ISLAMABAD Dec 7: Economic Cooperation Organization Science Foundation, a newly established Regional Organization in collaboration with the Ministry of Science and Technology, Climate Change Division Government of Pakistan, ECO Secretariat Tehran and ECO Institute of Environmental Science and Technology organized a two day consultative meeting of experts on climate change of biodiversity at a local hotel.

Its objective was to review the status and plan for future to tackle the fast changing climate and its effects on biodiversity in the ECO region. The meeting was inaugurated by the Federal Secretary Ministry of Science and Technology. Other dignitaries also spoke on the occasion.

Eminent experts/ scientists on the subject from the ECO member states including Pakistan attended the meeting and discussed the issues related to climate change and

biodiversity in the region. The recommendations of the meeting will be presented to higher forums of ECO and actions will be taken accordingly. - PR
